

SALMAN ARYA SANDYTIA

081343692414 | aryasandytia26@gmail.com | <https://www.linkedin.com/in/salman-arya-sandytia/> | <https://salmanars.vercel> Semarang, Central Java, Indonesia

A fresh graduate in Computer Engineering from Diponegoro University with a strong academic record (GPA 3.59/4.00) and practical experience spanning full-stack development and interactive software solutions. Proficient in modern web frameworks, secure architectural design, and API integrations. Combines technical agility with proven leadership in managing digital content and teams, ensuring reliable product delivery in both independent and team-based settings.

Work Experiences

Klinik Pratama Diponegoro - Semarang, Indonesia Oct 2025 - Jul 2026

Fullstack Engineer (Project-Based) - Remote

- Designed and developed a web-based digital medical certificate system with multi-role access control (Patient, Clinic Admin, Doctor, and Academic Staff) designed to integrate with a blockchain verification network.
- Engineered a responsive patient-facing portal featuring reservation workflows tailored for both university students and non-student patients.
- Built specialized management dashboards for admins to oversee reservations/requests, doctors to review and approve medical certificates, and academic officers to verify document authenticity via hash matching.
- Collaborated closely with blockchain engineers to integrate hashing mechanisms, ensuring tamper-proof document verification and data integrity.

PT Duta Basis DataPrima - Bandung, Indonesia Jul 2024 - Aug 2024

IT Support (Internship) - Onsite

- Designed and developed an interactive Virtual Reality (VR) application using Unity 3D to simulate the company's physical environments, building structures, and field areas.
- Implemented 360° object interaction features and a user simulation navigation system, enabling clients to conduct virtual tours and review facility assets in real time.
- Collaborated with the team to ensure high-accuracy 3D visual representations optimized for the company's physical site layout specifications.

Education Level

Universitas Diponegoro - Semarang City, Central Java Aug 2022 - Apr 2026

Bachelor of Computer Engineering, 3.59/4.00

- Finalist in Scientific Paper Category (Team Fishcoin), GEMASTIK XVII – Semarang 2024

Organisational Experience

Himpunan Teknik Komputer – Diponegoro University- Semarang City, Central Java Jun 2024 - Jun 2025

Head of Information Division – Infokom Unit

- Led and coordinated the Information Division team to curate, produce, and distribute digital publications across departmental social media channels.
- Directed content strategy and editorial calendars, ensuring consistent posting schedules, high engagement rates, and cross-functional team alignment.
- Mentored division members in creative ideation, visual design execution, and project time management.

Himpunan Teknik Komputer – Diponegoro University- Semarang City, Central Java Jun 2023 - Jun 2024

Junior Staff of Information Division – Infokom Unit

- Brainstormed and created engaging visual and informational social media content, enhancing student reach and community engagement.
- Managed editorial posting timelines and content scheduling to ensure timely delivery of departmental announcements.
- Collaborated with cross-functional team members to design creative infographics and publication materials..

Certifications

CCNA: Enterprise Networking, Security, and Automation - Cisco Networking Academy Jan 2026

Advanced CCNA certification covering enterprise network architecture, WAN technologies, OSPF and EIGRP routing, network security (ACLs, VPN, IPsec), and network automation using SDN, APIs, and Python. Demonstrates ability to design, secure, and automate modern enterprise networks.

- CCNA: Switching, Routing, and Essentials - Cisco Networking Academy** Aug 2024
 Focused on configuring and troubleshooting switched and routed networks, including VLANs, inter-VLAN routing, STP, EtherChannel, WLAN implementation, DHCP, NAT, and Layer 2 security. Builds practical skills for managing medium-scale network infrastructure and automate modern enterprise networks
- CCNA: Introduction to Networks - Cisco Networking Academy** Jan 2024
 Foundational CCNA course covering OSI and TCP/IP models, IPv4/IPv6 addressing, subnetting, Cisco IOS configuration, static and dynamic routing, and core network services such as DNS and DHCP.
- Introduction to IoT and Digital Transformation - Cisco Networking Academy** Jan 2024
 Introduces IoT architecture, sensors and actuators, communication protocols, and IoT security. Explores how connected devices drive digital transformation and data-driven decision-making across industries.
- IT Essentials: PC Hardware and Software - Cisco Networking Academy** Jan 2023
 Covers PC assembly, operating system installation and configuration, hardware and software troubleshooting, basic networking, and security fundamentals. Provides a strong foundation for IT support roles.

Skills

- Hard Skills:** HTML, CSS, jQuery, Next.js, Laravel, PHP, JavaScript, Typescript, Java, Spring Boot, Python, React.js, Firebase, , HTML, CSS, Tailwind CSS, WordPress, MySQL, NestJS, Express.js
- Soft Skills:** Communication, Teamwork, Problem solving, Leadership, Time management, Adaptability, Critical thinking, Creativity, Analytical thinking, Work ethic, Analytical skills, Communication skills
